OVERVIEW

From the powder-white dunes of Lancelin to the rose-coloured shimmer of the Pink Lake, Western Australia's north coast reveals a landscape so striking, it feels almost otherworldly. Here, the desert rolls into the sea, red gorges open like pages of ancient history, and every horizon seems painted by nature's boldest hand.

North Coast Wonders Tour is a three-day curated journey designed to bring you into intimate contact with these wild and beautiful places — with comfort, insight, and a sense of quiet adventure guiding every step.

Glide down endless dunes, peer through the natural rock window carved by time, feel the vastness of the Skywalk beneath your feet, and let each evening draw to a close in the warmth of hand-selected coastal stays.

This is a journey not only to explore — but to pause, breathe, and reconnect with the elemental soul of Western Australia's north.

ITINERARY

NORTH COAST WONDERS TOUR

DAY 1

White Dunes & Coastal Light

Your journey begins with a relaxed morning departure from Perth, following the Indian Ocean Drive as the city fades into wide skies and rolling coastal plains. It is a drive that invites you to slow down, breathe deeply, and ease into the rhythm of Western Australia's northern coast.

Sandboard/4WD in Lancelin Sand Dunes

Soon, the landscape opens into the iconic Lancelin Sand Dunes, a dazzling desert of pure, chalk-white sand sculpted by wind into soft, sweeping ridges.

You may choose to:

- sandboard down the slopes with a rush of adrenaline
- join a 4WD dune adventure, cresting wave-like hills of sand
- or simply wander and photograph the surreal desert scenery

The dunes stretch endlessly beneath a brilliant sky — a landscape that feels untouched, elemental, and wonderfully photogenic.

Lunch in Lancelin

A relaxed lunch at a local favourite gives you time to unwind and chat with fellow travellers before the journey continues northward.

Nature's sculpture in motion

Along the coastal highway, the land reveals one of its quiet yet unforgettable icons: the Greenough Leaning Tree.

Bent almost parallel to the ground by decades of relentless ocean winds, it stands as a testament to resilience — a living sculpture shaped over time into its own kind of beauty.

Arrival in Geraldton

By late afternoon, coastal light softens over Geraldton as we arrive in this vibrant seaside city, where modern architecture meets the relaxed rhythm of ocean life.

Here, you'll check into The Gerald Apartment Hotel (or similar standard), our hand-selected accommodation for the night.

Settle in, breathe in the sea breeze, and enjoy a night of comfort as you prepare for the majestic landscapes that await tomorrow.

DAY 2

Gorges, Clifftops & a Lake Painted in Pink

Today's journey leads into some of Western Australia's most dramatic natural wonders — a blend of ancient geology, raw power, and ethereal beauty.

Kalbarri National Park

Heading inland, the colours shift from coastal greens to burnt orange and deep red as we enter Kalbarri National Park.

Nature's Window

Your first stop is the famous Nature's Window, a naturally sculpted sandstone arch framing the winding Murchison River below. Through this window, the landscape looks like a living painting — layers of rock, shifting light, and ancient riverbeds stretching into the distance.

Kalbarri Skywalk

Next, step onto the impressive Kalbarri Skywalk, where two cantilevered viewing platforms extend dramatically over the edge of the gorge.

The view is breathtaking: sheer red cliffs plunging into shadowed valleys, with the vast Australian wilderness unfurling into the horizon.

The feeling of standing "in the air" above this ancient canyon is something few forget.

Natural Bridge & Island Rock

Returning to the coast, you'll witness the wave-carved formations of Natural Bridge and Island Rock, where the sea crashes against towering limestone cliffs in a powerful, echoing rhythm.

The views are dramatic, elemental — the very edge of a continent meeting the restless Indian Ocean.

Hutt Lagoon (Pink Lake)

By afternoon, the landscape transforms again into one of Western Australia's most iconic sights: the Pink Lake.

Here, the water glows in rich hues of rose, coral, and blush — its colour shifting with sunlight, clouds, and season.

Standing beside it feels like stepping into another world, one painted with colours too beautiful to be real.

HMAS Sydney II Memorial

Back in Geraldton, the day concludes with a visit to the HMAS Sydney II Memorial, an elegant and deeply moving tribute overlooking the sea.

Its silver dome — formed of 645 stainless steel gulls — is a quiet reminder of reflection, remembrance, and the ocean's vastness.

Your final morning begins with an optional yet unforgettable experience.

Optional Pink Lake Scenic Flight

For guests seeking a once-in-a-lifetime perspective, the optional scenic flight over Pink Lake offers an experience that is nothing short of magical.

From the moment the aircraft lifts gently into the sky, the landscape transforms beneath you—coastal dunes ripple like silk, and the shoreline curves in soft arcs against the Indian Ocean.

It is a moment where time slows, and every view feels like a photograph waiting to be captured.

Touching back down, you'll carry with you not just a memory, but a new perspective on the vast, surprising beauty of Western Australia's north coast.

DAY 3

Skies, Stone Forests & the Way Home

Cervantes & Lobster Shack

Travelling south, arrive at the charming seaside town of Cervantes, home of the well-known Lobster Shack, an iconic family-run establishment perched right by the waterfront.

Inside, the atmosphere is lively yet laid-back —part seafood factory, part beachside eatery—where the scent of grilled lobster lingers in the air alongside ocean breezes drifting through open windows.

Indulge in their signature Western Rock Lobster, harvested daily from local waters. Whether you prefer it grilled with garlic butter, served chilled with lemon, or paired with crispy chips and fresh salad, every bite captures the purity and sweetness of the sea. With floor-to-ceiling views of the bay, lunch becomes a serene coastal moment—simple, honest, and deeply satisfying.

Pinnacles Desert

In Nambung National Park, thousands of limestone pillars rise from golden sand — each shaped over thousands of years by wind, water, and shifting earth.

Walking among the Pinnacles feels like entering a natural sculpture garden, a silent stone forest glowing under the desert sun.

As the afternoon softens, we begin the journey back to Perth.

Lean back, watch the scenery change once more, and let the memories of dunes, cliffs, pink waters, and wind-carved stone settle gently into your heart.
